

Cerberus Technologies provides technology solutions to the resource, critical infrastructure and government sectors.

Project construction, management, service and maintenance are services coordinated from the Perth, Western Australian office.

Cerberus recognises its moral and legal responsibility to provide a safe and healthy work environment for workers, clients, subcontractors, vendors and visitors at all Cerberus workplaces. This commitment extends to ensuring that our operations do not expose the local community to undue risk of injury, illness or damage to property or environment.

## Our Health and Safety Policy

### Cerberus Technologies is committed to:

- Providing a safe and healthy work environment
- Eliminating or reducing hazards and risks by applying the hierarchy of risk control measures to prevent injury or damage
- Working on the basis that all injuries, incidents and industrial related diseases are preventable
- Monitoring safe conditions in our organisation by verifying our activities comply with legislation, standards, performance requirements and commitments
- Managing incidents in a just and fair manner
- Consulting with our workers, subcontractors, clients and third parties impacted by our organisation
